    </div>

    <h3 class="part-two">The following list is a timeline of Onassis Life</h3>
    <ul>
        <li>1906 - born in Karataş, Smyrna, Ottoman Empire.</li>
        <li>1922 - He left from Smyrna during the great fire of Smyrna in 1922
.</li>
        <li>1932 - He went to Buenos Aires, Argentina and start working as a t
elephone operator.</li>
        <li>1929 - He relocated to New York and started his shipping businesse
s.</li>
        <li>1946 - Onassis married Athina Livanos, daughter of shipping magnat
e Stavros G. Livanos and Arietta Zafrikakis, on 28 December 1946. The couple h
ad become largely separated by the mid-1950s.</li>
        <li>1950-
1956 - Onassis had success whaling off the Peruvian coast.</li>
```

```html
        <li>1953 - In Monaco he started to purchase the shares of Monaco's SMB
 using the tax haven of Panama and finally take the control of SBM.</li>
        <li>1954 - Cancelation of the agreement between the Saudi government a
nd Aristotle Onassis to transport Saudi oil on his tankers and "in any case, t
o make the agreement ineffective".</li>
        <li>1956 - Aristotle Onassis signed a contract granting him the operat
ional rights to the Greek air transport industry. Olympic Airways was founded.
</li>
        <li>1957 - Onassis and opera prima donna Maria Callas embarked on an a
ffair despite the fact that they were both married.</li>
        <li>1966 - Rainer of Monaco approved a plan to create 600.000 new shar
es in SBM reducing Onassis's stake to under a third.</li>
        <li>1967 - Onassis court until he left Monaco.</li>
        <li>1968 - Onassis announced the launch of Project Omega, a $400 milli
on investment program that aimed to build considerable industrial infrastructu
re in Greece including an oil refinery and aluminum smelter.</li>
        <li>1968 - Onassis ended his relationship with Callas to marry Jacquel
ine Kennedy, widow of U.S. President John F. Kennedy.</li>
        <li>1975 - Onassis died at age 69 on 15 March 1975 at the American Hos
pital of Paris in Neuilly-sur-
Seine, France, of respiratory failure, a complication of the myasthenia gravis
 from which he had been suffering during the last years of his life.</li>
